Dear Ralph,

Thanks for your time today.

I would like to object to this planning application of the following points:

- 150,000 tonnes of waste arriving and being taken away will create somewhere in the region of 20 - 30 trucks arriving and leaving each day. This does seem a considerable load.
- Opposite this site is a golf course being constructed, this is going to create a more tranquil setting, whereas the RDF plant will be detracting from the quiet setting.
- Also, I would be interested to hear people's response to the fact that the RDF is then being transported to foreign countries as we do not have the burning facilities in the UK, what's right about that?

Yours sincerely,

Ivan Pierson
