Subject: New comments for application FUL/2023/0005

Categories: BSA

New comments have been received for application FUL/2023/0005 [REDACTED]

Comments:
Good Evening

We have been advised by other local residents that the plans for the new recycling centre were adapted in 2022 without any consultation, to either the residents or NNDC. And if the site increases that the tonnage is expected to increase to 6000 tons, which obviously this would mean an increase in traffic. I am raising concerns as I have only lived in Beeston Regis for the last four years and already the increase of traffic during this time has increased the incidents at the top of Britons Lane , and the increase of manual speed cameras reflects this change. Please could the person or persons responsible for these plans agree to hold a meeting to discuss with the local residents the new plans.

Yours faithfully
