Subject: New comments for application FUL/2023/0005

Categories: BSA

New comments have been received for application FUL/2023/0005 [REDACTED]

Comments:

I support this application for the new recycling centre as the increase in new development in the local area will benefit greatly from an improved facility. There will be much less closure time while the bins are being changed which will increase the new centre's intake of waste. There will also be less traffic issues from those accessing Hilltop Outdoor centre (coaches, deliveries, etc) as cars would be parked off the road and pedestrians will be much safer, as the speed limit in the lay-by is 50mph and I have seen many people travel at that speed. The reuse shop will also help towards creating a more environmentally friendly community and will reduce fly tipping. The new proposed site would also be ideal as there will be no need to remove trees and cause excessive damage to the AONB.
