

Hi [REDACTED]

[REDACTED]

Why does the site operate outside the hours already conditioned by Breckland ?
lorries are dispatched and lorries delivery to the site at all hours.

Why does the site operate plant that is already conditioned by Breckland, is an
excavator plant ?

Why do the lorries go through Bunwell, Ugate Street, left out of the site when
according to the agent they only go through Spooner Row ?

Why do lorries constantly tip waste at the site when they have no planning to do
so ?

Why are excavators easily seen above the bunds when the agent states to
landscape they cannot be seen ?

The statement made by Spooner Row CC is perfect example of how local residents
are being woken by tipper lorries at all hours, although their recommendation
should be directed to Breckland [REDACTED]

I would urge this council to speak to Breckland enforcement to establish a
baseline of facts before proceeding [REDACTED]
