1 ATC and MCC Traffic Survey Data

1.1.1 This appendix contains a summary of ATCs (Automatic Traffic Counts) and MCCs (Manual Classified Counts) used to inform the traffic modelling process. There are three tables provided covering AM peak hour (8am-9am) Interpeak (IP) which is a typical hour within 10am and 4pm and PM Peak Hour (5pm-6pm). The data was collected in 2018, 2019 and 2022. The direction of flow is also shown as Eastbound (EB), Westbound (WB), Northbound (NB) or Southbound (SB). Inbound (IB) and Outbound (OB) are also used for some surveys.

Table 1-1 ATC and MCC Traffic Survey Data Summary – AM Peak
