

GLASS FIBRE TANK COVERS

- LIGHTWEIGHT
- STRONG
- EASILY WORKED
- SELF COLOURED
- MAINTENANCE FREE

CONSTRUCTED FROM GRP, THESE TANK COVERS ARE STRONG, LIGHTWEIGHT, ROBUST, MAINTENANCE FREE AND SECURE STRUCTURES. GRP IS 1/6th OF THE WEIGHT OF STEEL.

Tank Covers - Tilbury

Central Walkway Panel, with non-slip surface and engineered to withstand personnel loads as well as connecting pipework loads.

Non-slip surface

Dalcross Treatment Works

GRP tank covers for sewage treatment plant. Survey, design and manufacture.

'D' Covers

2 'D' shaped halves, joined with central connecting rib to produce circular tank cover, for smaller tanks. Complete with man door/access hatch and pre-determined flanges for connecting to existing pipework.

Individual side panels, bolted together and to the central walkway, which with handrailing allows safe access to connecting pipework for maintenance purposes.

3D-CAD Models

Fabrication drawings produced using state of the art 3D modelling programme, to ensure no clashes occur during construction of final product.

Tank Covers - Stornoway

A test build for a 20 degree Conical Cover, made up from reinforced segments for heavy duty use.
