Dear Sir

22 July 2021

Application No. FUL/2021/0015
Aldeby Landfill Site Solar Park.

The Parish Council have no objection to the proposed solar park and consider it is a sensible use of the former landfill site.

The panels are located in a very sparsely populated area and hence have minimal impact on local residents.

Councillors are concerned whether there is sufficient existing infrastructure to deliver the electricity generated to the grid.

Councillors are strongly opposed to the traffic management proposals for Aldeby and consider it both over complicated and unnecessary as traffic could be directed along the existing haul road. Arcus need to negotiate an arrangement with the landowners concerned to use the haul road.

Councillors are disappointed that local villages will not benefit directly from the installation.

Yours sincerely

Simon Solomon clerk.
