6th August 2021

Dear Mr Cox

**T&CP (Development Management Procedure) (England) Order 2015
& Planning (Listed Buildings & Conservation Areas) Regulations 1990**

**Aldeby landfill site, Common Road, Aldeby, Beccles, NR34 0BL
Application No. FUL/2021/0015**

Thank you for your letter of 19 July 2021 regarding the above application for planning permission for installation of a solar photovoltaic array/solar park with associated infrastructure. On the basis of the information available to date, we offer the following advice to assist your authority in determining the application.

The proposed development would not have any significant impact on any grade I and grade II* listed buildings or scheduled monuments in the wider landscape surrounding the application site.

Historic England has no objection to the application on heritage grounds.

We recommend that you consult with your specialist local conversation advisors with regards to potential impacts on grade II listed buildings and also with your specialist archaeological advisors with respect to the potential impact on non-designated heritage assets with archaeological interest.

Your authority should take these representations into account in determining the application. If there are any material changes to the proposals, or you would like further advice, please contact us.

Yours sincerely

Dr James Albone MCI fA

Inspector of Ancient Monuments (Bedfordshire & Norfolk)
