1 Uncertainty Log

- 1.1.1 This appendix contains the Uncertainty Log which is a list of potential developments in the surrounding area across Kings Lynn and West Norfolk which have been considered for inclusion in the strategic transport model. The log lists the type of development and its planning status. The status is used to decide if included or not. Only developments that are classed as near certain or more than likely are used in the core scenario which is the basis for the planning application.
