**Categories:** BSA

New comments have been received for application FUL/2024/0001 from [REDACTED]

Comments:

I would make the following comments regarding this application:

5 roundabouts and a light controlled crossing on such a short stretch of road is frankly ridiculous. These will add noise, slow traffic and have significant environmental impact.

Rectory Lane must become significantly busier. It is already used by many walkers/dog walkers and it will be very dangerous in sections with blind bends and no verges to take refuge in places. The scheme should include provision of a footpath on ALL of Rectory Lane.

The Rectory Lane flyover is going to be an eyesore. More should be done to lessen it's visual impact. Do we really need it at all - should Rectory Lane also be cut? This would save a lot of construction cost and remove the need for the previous comment.

With the closure of Chequers Lane, "Twisty Twiney" is bound to have more traffic. It could need significant upgrades to cope with this.
