New comments have been received for application FUL/2024/0001 from [REDACTED]

**Comments:**

There is no improvement to the current sub- standard cycle lane along the A10. The whole of the Hardwick roundabout should be included in the scope and the current cyclepath should be extended to the whole roundabout. Furthermore the light phasing should favour cycling/pedestrians as it currently takes a long time to get round. The cycle path on the new road does not extend to the A47 and there is no cycle path along the proposed duelled A47. I understand that eventually cyclists can cut through the new housing but that could be many years later: in the meantime the route into town would be hazardous.
